Historical Data Loading Testbed

Symbol: Daily

Select a Data Provider, enter a Symbol, and click Load Data to test data loading.

Data Provider-Specific Settings

In order to connect to Schwab's API and develop your trading ideas in WLS, you need a **App Key** from Schwab. Follow these steps:

- Visit <https://developer.Schwab.com>, click Register, wait for confirmation email.
- Click the link in confirmation email and complete the Schwab Dev account creation process.
- Click the My Apps button on the web page, and add a new App.
- Give the App a name unique to you and your trading setup.
- For the callback URL, specify this exactly: <https://schwab.wealth-lab.com>
- Complete the creation process, which will result in the generation of your **App Key**.
